WHO WE ARE

We are skiing. Skiers and riders love us. New England Ski Journal media properties — print, digital, television — deliver the most compelling, laser-focused content to a target audience of participants and skiing enthusiasts and consumers.

New England Ski Journal was launched in 1996 and has become the finest ski and ride publication in the region. The magazine — in both print and digital editions (on skijournal.com) — is the must-read source for the latest news and most interesting features from across the six-state region — one of the largest markets in the world in terms of ski and ride participation and consumer spending on ski-related products and services.

A staff of award-winning writers — including Pulitzer winners,

Boston Globe columnists and regional literary standouts — helps us bring the New England high country to life. New England Ski Journal reaches the coveted 25-54 age demographic by covering every aspect of skiing and riding in New England, including resort profiles, lodging insight, tips, gear and commentary.

Complementing the magazine, our Emmy Award-nominated New England Ski Journal TV show — now in its fourth season — reaches an even wider audience of highly educated, affluent families with spending power. The show airs on NESN and NESN National and is produced by Moody Street TV, an award-winning branded entertainment and distribution company.
